September 30, 2013

Dear Gustavo Lopez ESTIVALET,

This letter is to confirm that Gustavo Lopez ESTIVALET participated in the "Journée IXXI: Analyses en Neurosciences: connectivité, transfert d'information et réseaux", Monday 14th October 2013, from 10 a.m. to 17 p.m. at the Institut Rhône-Alpin des Systèmes Complexes (IXXI), Lyon, France.

During the conference, there were the presentations detailed below:

-Mickael Wibral (MEG unit, BIC, Frankfurt) 10h30-11h30
"Transfer entropy in MEG"

-Karim Jerbi (DyCog, CRNL, Lyon) 11h30-12h15
"Measuring long-range interactions in resting-state networks: Combining insights from fMRI and intracranial EEG/Exploration des interactions à large-échelle dans les réseaux de repos: Étude combinée IRM fonctionnelle et EEG intracrânien"

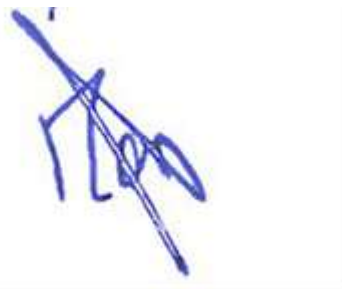

-Jérémy Mattout (DyCog, CRNL, Lyon) 14h-15h
"Dynamic Causal Modelling for EEG/MEG: an overview"

-Sophie Achard (CICS, GIPSA Grenoble) 15h-15h45
"Réorganisation du réseau de connectivité cérébrale chez des patients dans le coma"

-David Meunier (CMO, CRNL, Lyon) 16h-16h45
"Modular structure of resting-state and task related functional networks in fMRI/Structure modulaire des réseaux fonctionnels en IRMf au repos et lors de tâches cognitives"

Yours sincerely

Dr. David Meunier
